RESOLUTIONS

OF THE INTERNATIONAL SYMPOSIUM “MODERN TECHNOLOGIES, EDUCATION AND PROFESSIONAL PRACTICE IN GEODESY AND RELATED FIELDS” Sofia, November 09 - 10, 2006

RESOLUTION No 1

Considering:

- the state and the perspectives of development of the technologies, their impact on education and professional practice in the field of geodesy and the related fields, as well as the need for implementation of unified standards;
- the role of geodesy, photogrammetry, cartography and cadastre for the development of society, urban and rural planning, construction of engineering sites and infrastructure, as well as for resolving interdisciplinary problems,

the Symposium

RECOMMENDS:

The work in this field has to be continued, their rang has to be enlarged and enriched, and their results has to be presented and discussed at national, European and international forums.

RESOLUTION No 2

Taking into account:

- the undeniable use and necessity for continuous mutual exchange of knowledge and experience between the scientists and professionals of all levels in the field of geodesy, photogrammetry, cadastre and cartography and related fields, as well as the implementation of international standards,

the Symposium

RECOMMENDS:

That the next traditional International Symposium “MODERN TECHNOLOGIES, EDUCATION AND PROFESSIONAL PRACTICE IN GEODESY AND RELATED FIELDS” to be held in Sofia, November 08 – 09 2007, with a separate session for young specialists and students and exhibition.

RESOLUTION No 3

The participants of the Symposium express their gratitude to Union of Surveyors and Land Managers in Bulgaria, the Scientific Committee, the International and the Local Organising Committee and the sponsors for the successful and fruitful organization and conducting of the Symposium, the favourable atmosphere and the hospitality during the Symposium.

Sofia, November 10th, 2006
