Riga Technical University Department of Geomatics

The absolute number of the graduates
surveyors:

1991-1, 1993-14, 1994-6, 1996-3, 1998-3,
2000-6, 2001-11, 2002-5, 2003-4, 2004-5,
2005-15, 2006-7.

PROBLEMS

- The number of graduates surveyors is not sufficient;
- The quality of surveying studies;
- The international exchange of students and lecturers;
- A lack of internationally recognized coursebooks in geodesy and surveying.

SOLUTIONS

- more state budget places;
- new study programmes: professional bachelor (4,5 years) and professional master (1,5 years);
- FIG Commission 2 Symposium in Prague, 7-9 June 2007.
