

## **CLGE at Map Middle East 2008, Dubai UAE.**

Mark R. Wijngaarde, CLGE's special Envoy, took the opportunity during the 4<sup>th</sup> Annual Middle East Conference on Geospatial Information, Technology and Application April 8<sup>th</sup> -10<sup>th</sup> 2008 in Dubai UAE to wave the CLGE flag outside the EU territory.

Besides saying hello to our distinguished colleague, former Danish CLGE delegate and friend Stig Ennemark, President of the International Federation of Surveyors (FIG), who gives a presentation on the plenary session on Geospatial Policies about Land Management and Spatial Enabled Government, CLGE was introduced to Eng. Mohammed Al Zaffin, Director of GIS Centre Dubai Municipality, Mr. Venkatesa Kumar, GIS Head Information Systems Directorate Bahrain and Mr. Masoun Shahbandar, Head of Planning & Projects of the Centre for GIS Urban Planning & Development Authority of the State of Qatar.

In the frame of geospatial globalization it is advisable, if opportunities occurs, for CLGE to cross EU borders.

*Mark R. Wijngaarde*
