Students and Trainees Exchange Programme

Michelle Camilleri, Jean-Yves Pirlot

22 September 2009

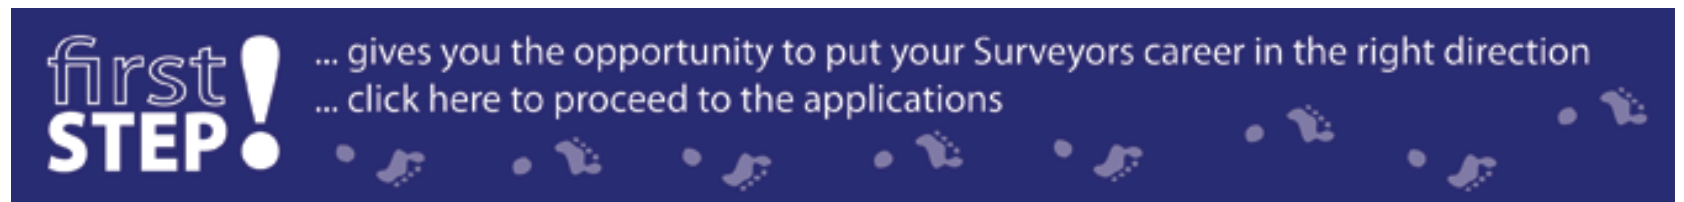

Students Meeting InterGeo 2009

Programme Launch

- A link was created on our homepage

www.clge.eu

- Once you click on this link you will be directed to the first STEP! section where an introduction with the aims & objectives of this programme is explained

How does it work?

- This section has two types of applications that can be filled in online:
 - *STUDENT / TRAINEE CV's*
students / trainees post their CV's
 - *VACANCIES / JOB OFFERS*
company data offering the post

Some principals

- The data will be uploaded by the Student, Trainee or the Company themselves
- A disclaimer was inserted stating that the person / company has agreed to have their information published on the website

Student or Trainee

Form to include the following information:

- Student / Trainee looking for a job
- First Name / Last Name / Contact Number
- Email address / Nationality / Age
- Which country are you in now
- What year did you graduate
- Which University / High School did you attend
- When can you start working
- Which is your preferred country

Company

Form to include the following information:

- Company offering a job:
- Company Name / Contact Name / Contact Tf
- Email address / Website address / Country / Region (if need be)
- What position are you offering
- Does the applicant need to be a graduate
- Can a student apply
- What is the duration of the vacancy
- When will the vacancy be available

Way ahead

- Presentations
 - Rome at the CLGE GA, 11 September 2009
 - Karlsruhe InterGeo, 22 September 2009
- **WORK FOR YOU:**
 - Students to apply
 - Teachers to inform
 - Surveyors to propose positions

first STEP! ... gives you the opportunity to put your Surveyors career in the right direction
 ... click here to proceed to the applications

Welcome to the CLGE

We are the Council of European Geodetic Surveyors.

Our Mission is to represent and promote the interests of the geodetic surveying profession in the private and public sector in Europe, especially:

- The creation of permanent forum for European geodetic surveyors, who are committed to European co-operation.
- The promotion and exchange of technical, scientific, educational and organisational know-how with the European states.
- Provisio of assistance to member countries, to national associations and EU institutions on request.

STEP!**

Students and Trainees Exchange Programme

This is the Students & Trainees Exchange Programme

The purpose of this programme is to provide students and trainees with an opportunity to discover the geodetic practice within different European countries and concurrently gaining experience in their field of study, past or present.

The idea behind this programme was for CLGE to act as a bridge between the working world and the academic world; what we at CLGE want to achieve through such a programme is to enable companies to post a notice of any vacancies and for students willing to gain experience in a different European country as to where they are currently living to post their CV and make the information available. Hence, with this in mind, CLGE has created a meeting point for students and trainees that are in search of work and for companies that are in search of students and/or trainees.

Applications are available on line and they may be directly filled in by yourself; if you do encounter any difficulties, do not hesitate to contact us by emailing on FirstSTEP@clge.eu. We would also appreciate it if you could give us any feed back both on the programme and on whether you have been able to find a job or offer a job. Keep in touch with us so that we can share your experience with the rest.

Thank You & Good Luck!!!
