

CLGE Seminar in Bergen 29 – 30 April 2009

Ladies and gentlemen
Dear friends

We have the pleasure to inform you that the Council of European Geodetic Surveyors (CLGE) together with Geometer Europas, Bergen University College and NJKF (The Norwegian Association of Surveyors) are organising a CLGE Seminar under the title:

The Boundary

The seminar will take place in the Norwegian City of Bergen, well known as the capital of the Fjords, on the 29 and 30 April 2009. The seminar will be in English language.

The seminar will concentrate on the importance of property information with special focus on the boundary. One of our main targets will be to use this meeting as an opportunity to open in-depth discussions in special between European universities. Boundaries and the effects of boundary surveys are defined in different ways all over Europe, and it is important to get knowledge about how the countries in Europe solve the challenges regarding property boundaries. These are important issues for both the society and the landowners. Hence, the seminar will be of interest for everyone working with property boundary issues.

The seminar will address the following major issues:

- Property and the Boundary. Keynote addresses.
- European platform – importance of property information
- How is the property boundary defined? Access to information? How are boundary disputes solved? What is the function of the coordinates? Different solutions in Europe
- The future of cadastral surveying as an academic profession

In order to make sure that we are going to be ready for such discussions, we have set up the following timeframe:

1. - Deadline for receipt of abstracts: 31st of August 2008.
2. - Deadline for receipt of papers: 31st of January 2009.

We can offer publishing of papers in the Norwegian Scientific Journal *Kart og Plan*.

We are relying on everyone's commitment to ensure the success of this important event and look forward to see you in Bergen.

Looking forward to your participation, with best regards

The Organising Committee
