Republic of Moldova

Brussels, 15 July 2011

Results of CLGE delegation visit

Dear Mr. Ghilas,

In the name of the Council of European Geodetic Surveyors, I want to thank you for your kind invitation of a CLGE delegation from 29 to 31 March 2011.

Due to earlier engagements, I unfortunately was not able to attend this important event. To bring you the initiating visit I've appointed a CLGE delegation of highly regarded specialists: Mr. Henning Elmstroem, past president of CLGE and President of the Danish umbrella organization of Land Surveyors (DdL), as well as Mr. Dieter Seitz, Treasurer of CLGE and President of the Publicly Appointed Surveyors Union of Baden-Wurtemberg. During this period our delegation took part in meetings at the Land Relation and Cadastre Agency and subordinated State Enterprises, at the Technical University of Moldova and at the Moldavian Union of Surveyors and private companies.

The main topics of discussions were related to the modernization of the cadastral system securing real estate property and creating the foundation of the National Spatial Data Infrastructure, the consolidation efforts of the surveyors associations, the improvement of the Initial Education and the Continuing Professional Development, the implementation of the CLGE code of conduct as well as the interaction between the state run cadastre, its civil servants and the private surveyors.

As result of the CLGE visit, I'm sending you the preliminary recommendations to the surveying community in the Republic of Moldova.

I am convinced that CLGE has an important advisory role to play in the development of a strong cadastral system, securing the real estate property. Moreover, I am sure that by choosing for a sound and well accepted system within the surveying community, the Republic of Moldova could also become an important example for other CLGE members, especially some EU member states.

Michelle Camilleri (Malta)

Secretary General

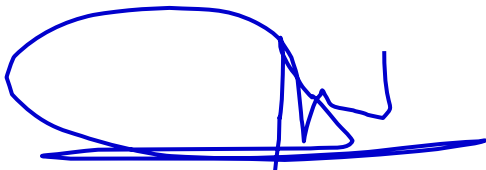

I would like to thank you once again for your hospitality and to express our interest in developing further cooperation between your Agency, the Moldavian Union of Surveyors, the Technical University of Moldova and CLGE.

We would be very pleased to continue our activities started in Moldova in a direction of developing a common vision based on attached recommendations.

I propose that we meet again and discuss the possible follow up of our first mission. We could for instance prepare a common seminar to be organized in Moldova and / or evoke the possibilities to nominate a CLGE delegate from the Land Relation and Cadastre Agency.

I am looking forward to hearing from you soon.

Sincerely yours,

Jean-Yves Pirlot
CLGE President
