4 Action Items.

All

11 I – 1 Transferred to Dieter Seitz (in attachement).

Nb: All the tasks of Danko Markovinović are transferred to Vladimir Krupa.

11 I – 2 Clemens Kiepke reports about his research. Only Germany and Switzerland have price lists. We should still work on this topic.

This is only possible for publicly appointed surveyors, who are by law out of the scope of the EU regulations forbidding the existence of price lists.

In Germany the state can perform the same tasks as the Publicly Appointed Surveyor; this is another reason for the existence of a price list. This avoids undue concurrence by the State.

The price list is also a kind of protection for socially weaker people.

Clemens Kiepke will write a report about this topic and it will be circulated before the next meeting.

11 I – 3 Discussion delayed until point 6.

Add TJ whenever HE is mentioned.

11 I – 6 transferred to Vladimir Krupa (VK).

11 II 2 – done except 1 country

11 II 3– done

11 II 4– It's difficult but it has to be pushed

11 II 5 – Maurice has received something. The idea is to build a grid about the studies. Has to be discussed with DM in Opatija.

Jean-Yves Pirlot presents the application made by a Greek student during the students contest. He will send the link.

12.I.1– Pedro's report was sent out but APV will check if it is on the website.

5 Minutes of presentations for national organisations:
Croatia / Zagreb (MB/JYP)

MB/JYP

Vladimir Krupa reports about the visit of IG-PARLS in Croatia.

The visit of CLGE + IG-PARLS to the Minister in charge was the first step of the project to create an improved situation for the Croatian surveying sector. We are waiting for a little text from Croatia about this event insisting on the participation of the Minister.

A letter will be sent to the Minister to remind him the results of the meeting (after the symposium).

This will be coordinated with the Croatian Chamber and can be done after the next meeting in Opatija, on 19 October.

The Director General of the NMCA visited Germany to learn about the German system.

A visit of Switzerland has also to be planned.

- 6 Situation of the project “Revision of the Accord Multilateral” Working group

Henning Elmstroem and Torben Juulsager report about the work in progress.

They will table a report for the minutes to be attached.

Three documents will be prepared. 1 short code (to be signed by those who have signed the AM), a full report, and a letter of intent.

The letter of intent can be signed by the national association but should also be signed by the government or the NMCA Director General. This would improve the relevance of the document. It would be a kind of roadmap towards the public appointment.

The scheme is accepted by the Members Meeting.

The working group will meet to go on with that project (Switzerland, Germany, Denmark and France). This meeting should take place before end 2012.

- 7 Dynamic Professional Knowledge Base MB

Maurice Barbieri presents the paper of Aerovision.

The CLGE ExB did not always agree with the answers (language, integration ...) and the different meanings. The ExB has sent an answer to Aerovision.

The paper and the answers of the ExB will be attached to the minutes.

The project goes on and the working group works on it.

The remarks of the CLGE are approved by IG-PARLS.

- 8 Preparation of the GA CLGE Hannover All

Jean-Yves Pirlot and Maurice Barbieri present the IG-PARLS part of the GA.

Maurice Barbieri gives a few words about the project www.blueparking.eu.

This project is very well accepted and will be tabled to the whole of CLGE during the Hannover GA.

- 9 Strategy 2012 – 2014 MB

The paper of the IG-PARLS strategy is commented by Maurice Barbieri.

He will give an update of the list of projects, where we are, what was done, what will be done at the GA in Hanover.

Other IG could be created in a near future.

10 Elections

All

Maurice Barbieri is unanimously re-elected as chair of IG-PARLS.

Clemens Kiepke is unanimously re-elected as vice-chair.

Dieter Seitz is accepted as a treasurer of IG-PARLS if he's re-elected at the CLGE level.

11 Internet website modifications

MB

The decision was taken in Nuremberg.

Maurice Barbieri comments the paper "Project of Internet page IGPARLS" he sent. We should at least put new information on the website as well as pictures.

We should create IGPARLS.eu and redirect this domain to the CLGE web site.

Everyone can send his comments to MB and he will advocate a quick update of the website towards the webmaster.
