National Park «Curonian spit»

03 July 2014, 12 – 6 pm (Incl. dinner)

Excursion to national Park «**Curonian spit**», entered in the register of protected objects of world heritage UNESCO. You will find an amazing, the fragile peace sandy spit, width from 400 m to 4 km, separating the Curonian lagoon from the Baltic sea and the journey in the history of relations between Man and Nature. Monitoring ringing of birds, which has been in these places more than a hundred years - a unique opportunity provided by the staff of the Station ringing of the Zoological Institute RAS. A walk in the forest dancing and meeting with moving dunes of the Curonian spit is an unforgettable journey into the world of true desert on the shores of the Curonian lagoon. During the warm weather, the sun and swimming in the sea, Golden sand beaches forever will captivate Your heart and will remain in memory.
