**Social Program for accompanying person**

№	Excursion	Additional information
1	<b>01.07.2014</b> Excursion Svetlogorsk-Zelenogradsk-Yantarniy(Amber) <u>full day</u> (9-18) with lunch	Excursion to the only place on earth where amber is extracted by the open industrial way. This place is also unique in that they extracted more than 90% of the world's amber deposits. In the end of 19 centuries in the village Palmniken (now Amber) on the coastal areas were laid eight galleries of amber extraction. However, soon they were flooded marine and groundwater, the costs involved in their construction and is not paid off. Currently amber factory mined using the open pit method and you will be able to see a huge quarry plant, where every day people and technology constantly raise to the surface of the precious resin. Visiting trade-exhibition complex "Amber Castle, you will admire the decorations of solar stone and, may be, will take with me the memory of these "pieces of the Baltic sun". In the continuation of the excursion you will go for a walk in the town-resort of Federal significance of Svetlogorsk. A walk through the town will remind you visit a Botanical garden. Luxurious vegetation, the old German buildings, promenade on the sea - all this will allow you to feel yourself in a cozy European town.
