

## News on the event of Day of European Surveyor and Geoinformation 2015, Budapest

On March 19, 2015, in the Conference Hall named Darányi Ignac of Ministry of Agriculture (FM), Budapest took place the event called „European Surveyor and Geoinformation Day” across Europe, initiated and announced by the European Council of Surveyors (CLGE), which was the fourth occasion in this series.

Hosted by FM, professional program of the conference was organized by the Hungarian Society of surveying, mapping and remote sensing (MFTTT).

The patron of the conference was Dr. Sándor Fazekas, Minister of Agriculture.

The performances were chosen from the dominant state, military, corporate and educational institutions of our profession. The following lectures were given in 11 topics:

- policy actualities
- cadastral trends
- GIS multi-national co-production program
- Field data collection as fundamental of spatial information infrastructures
- Building inventory Monitoring System – ÉMO
- Euclidean geometry in Kossuth Square construction works
- History of the MOM (Hungarian Optical Works) operation in the mirror of the International Year of Light
- presentation related to the International Year of the Map
- status of INSPIRE, e-environment protection services within the frame of INSPIRE (eENVplus project)
- cross-border mobile nature conservation map (eENVplus project).

The planned presentation on the „geospatial and infrastructure system of the Budapest transport management” unfortunately was cancelled.

Dr. Attila Szinay, Deputy Secretary of State (responsible for land cadastre and geoinformatics in Hungary), FM was the keynote speaker.

The chairman of the morning session was Dr. József Ádám academician, the president of the MFTTT, afternoon session was hosted by FM representative Ms. Piroška Zalaba GIS superintendent, member of the Management Committee of MFTTT.

In the foyer one of photogrammetric workstations of Institute of Geodesy, Cartography and Remote Sensing (FÖMI) was placed, where visitors using special glasses could experience the spatial operation of aerial photographs on the screen.

The participation was free of charge on this all-day conference, the participants were registered. **There were 129 attendees, 70 of them young professionals. The youth were excellent students of relevant educational institutions, as well as representatives of private companies, state management, educational and research institutes participated. The majority of the students was organized by Mr. János Heilmann educational expert, many thanks for him.**

Ministry of Agriculture provided the conference room and sponsored the buffet lunch for attendance. On the occasion of this event the management of the eENVplus funded 150 thousand HUF for MFTTT. HM Zrinski Nonprofit Kft. supported

the event by press release of Programme sheet in 200 copies.

László Buga, Deputy Secretary-General of MFTTT presented a detailed report illustrated with photographs of all speakers on MFTTT website. 106 high-quality photos also available on the website (<https://plus.google.com/photos/115842842421482565247/albums/6128704055388526945?authkey=CIGZ6K3gksD9QA>) by our colleague Mr. András Hodobay-Böröcz, copyrighted by him.

On behalf of the Management Committee I express my thanks to the presenters, the exhibitor FÖMI, the chairmen, the sponsors, organizers and the Organizing Committee members Ms. Piroska Zalaba, Mr. László Buga, as well to the Secretariat's staff of MFTTT for successful managing of the event.

Dr. Szabolcs Mihály, vice- president of MFTTT.
