

European Requirements for Cadastral Surveyor Activities

Revision of the 2008 version

Vladimir Tikhonov, CLGE Vice-President

Why to revise?

- 10 years passed
- National legislation development
- Institutional development (PPP)
- IT development (UAV, scanners, cameras, soft, etc.)*
- 25 countries participated (40 countries now)**
- Project authors recommendation

Cooperation with EuroGeographics

- All the statistics are in NCA Data Bases.*
In some cases – from the Associations.
- We should be polite and invite EG.
Important for politicians and EU officials.
- 2 correspondents in each country:
NCA and National Association.**

List of questions (country template)

It was 43 questions divided into 6 groups.

WG should update this list:

- to repeat some of them (10 years long tendencies)
- to exclude the questions with known answers *
- to add some new questions important for today's activity

Expected results

- Cadastral activities requirements-updated information
- 10 years long European tendencies
- Attract new participants (Russia, for example)
- Addition to the World Bank rating (Doing Business, section “Real Estate Registration”)
- Picture of cadastral activities in Europe by spent not too big money and efforts

Project realization plan - 1

- EG participation decision (KLRKEN Group)
- Joint Working Group (WG) creation*
- New country template (Virtual Meetings)
- List of project correspondents (2 per country)
- List of questions distribution (deadline)
- Answers collecting. Quality control

Project realization plan - 2

- Results graphical presentation
- Description of the results text (discussion)
- Project results publishing
- Project results presentations
 - CLGE GA 2018 autumn
 - EG GA 2018

Project budget should cover the last 5 plan's points

The **Council** of European Geodetic Surveyors
Comité de Liaison des Géomètres Européens

THANK YOU !

CLGE GA - Lausanne
