

The **Council** of European Geodetic Surveyors
Comité de Liaison des Géomètres Européens

IG PARLS 2017/2018

Thomas Jacubeit, BDVI-Vizepräsident

The Council of European Geodetic Surveyors

Comité de Liaison des Géomètres Européens

IG PARLS

Interest Group of Publicly Appointed and Regulated Liberal Surveyors

Members:

Austria, Belgium, Bulgaria, Croatia, Denmark, France, Germany, Luxembourg, Slovenia, Switzerland

There were two meetings: on the 28th of September 2017 in Potsdam during the INTERGEO week and on the 26th of February 2018 in Brussels.

Activities

- Round Table Paris 29th of January 2018:
- Discussion about the fig-policy Sustainable Fit for Purpose (SfFP): securing land rights, inform decision makers, respect the citizens culture and history, the legal framework, give information about aims and benefits, strengthen the cooperation with notaries

- The paper to the Round Table can be found on the CLGE-Website
- States in the Balkan could be an example for the Sustainable Fit for Purpose principle.

Code of Professional Qualification

- Developed mainly by IGPARLS
- The Code is giving a definition of professional qualifications and prerequisites
- Every country is invited to join, at least to the „letter of intent“

- After several virtual meetings the questionnaire to the „European Requirements for Cadastral Surveyor Activities“ is ready now and can be discussed for a final version.
- IG PARLS wants to improve its involvement in the CLGE Students Contest

EU-activities of IGPARLS/CLGE

The French colleagues from OGE proposed in our meeting in February to strengthen the activities concerning the EU to gather more influence to decrease our lack of recognition in the institutions. It ought to be similar to the notaries that are having a permanent presentation at the EU.

It was discussed to maybe create a new body to be known and heard.

Possible solutions are to use IG PARLS for that purpose or to re-install a Vice-president for EU-affairs.

A workshop shall be hold at the CLGE-GA.
