

THE COUNCIL OF EUROPEAN GEODETIC SURVEYORS (CLGE)
President Maurice Barbieri
Rue du Nord 76
BE – 1000 Brussels, Belgium

SUBJECT: 12th Symposium of Chartered Geodetic Engineers
Invitation to participate in the invited lecture, program of the
symposium, round table, panel discussions

Dear Mr. Barbieri,

The Croatian Chamber of Chartered Geodetic Engineers is organizing the 12th SYMPOSIUM OF CHARTERED GEODETIC ENGINEERS under the title “ETHICS WITHIN THE PROFESSION?!” , to be held from 18 to 20 October 2019 in Opatija, at the Grand Hotel 4 Opatijska cvijeta.

The Symposium, which is traditionally held every year, this year aims to discuss ethics in general, as well as the ethical dilemmas closely related to the geodetic profession. Furthermore, some of the other subjects to be discussed with regard to the main topic will include lifelong education and learning, technological development, etc. The Symposium programme will also include all areas of the geodetic profession such as cartography, spatial data, geovisualization, photogrammetry, cadastral surveying, engineering geodesy, geoinformatics, new technologies, etc.

Symposium topics

The submitted papers must be connected to the general, i.e. main topic of the symposium, which is “ETHICS WITHIN THE PROFESSION?!”

We hereby highlight the following subtopics of the main topic of the Symposium:

1. Code of ethics of chartered geodetic engineers,
2. Ethics in theory vs. ethics in practice! ,
3. Professional ethics,
4. How to deal with technological development? ,
5. Scientific ethics,
6. Business ethics,
7. Lifelong learning,
8. Lifelong education,
9. Forms of lifelong learning,
10. Professional training.

Other eligible subtopics to be included in the Symposium programme:

1. Cartography, spatial data, geovisualization,
2. Photogrammetry and remote research,
3. Cadastral surveying, land consolidation,
4. Engineering geodesy,
5. Maritime geodesy, Geophysical geodesy,
6. Geoinformatics,
7. New technologies.

We are expecting guests from domestic political and economic domain, prominent representatives of scientific and professional public and numerous chartered geodetic engineers and guests.

Through the program of this year's Symposium, we have envisaged a series of lectures, as well as round tables and panel discussions at which this topic will be discussed directly and publicly.

We would be especially honored and pleased to have you to support the meeting and attend the Symposium of Chartered Geodetic Engineers.

For you the Croatian Chamber of Chartered Geodetic Engineers will assume costs of registration fee and accommodation during the whole time of duration of the Symposium.

We are looking forward to meeting you and keeping company with you in Opatija.

Yours sincerely,

President of the Croatian Chamber of Chartered Geodetic Engineers
Vladimir Krupa, Master of Geodesy

President of the Organization Committee
of the 12th Symposium of Chartered Geodetic Engineers
Siniša Ramić, Master of Geodesy

President of the Scientific/Professional Committee
of the 12th Symposium of Chartered Geodetic Engineers
Rinaldo Paar, Master of Geodesy, PhD
