

CLGE Chief Financial and Administrative Officer (CFAO) for GISCAD-OV

Florian Lebourdais

With nearly twenty years of experience in European and international projects and partnership development, Florian Lebourdais is experienced in managing large scaled technical cooperation projects between EU Member states, and with many third countries on all continents, under all contractual and funding instruments used by the EU and other donors. By joining *Ordre des géomètres-experts* (French Order of Licensed Surveyors - OGE) in early 2017, these skills have been deployed on all topics related to geodesy, land planning, building construction, GNSS and GIS.

As CFAO, Florian Lebourdais will coordinate the CLGE contribution to the GISCAD-OV project. More specifically, he will be in charge of project monitoring, control and management on the activities led by CLGE. He will also make all necessary internal and external status reporting and communication about the project execution.

Florian can be contacted by [email](#).
