# Blue Surveying

- Seville Declaration:

- CLGE commitment to UN Sustainable Development Goals 2030 in order to ensure our profession at all levels is committed to sustainability so that we maintain a safe and habitable environment for future generations,
- preserve all water resources and an earth habitable for humankind;
- The CLGE Blue Surveying Working Group will continue its work beyond 2022. We are at the start of this journey but from small streams, will flow great rivers.
