As a general program Enrico intends to promote more active participation in the work of the "World water day" in collaboration with: UN Water; UNESCO World Water Assessment Programme; FAO; UNICEF.

We can play our part.

The global campaign “Be the change” encourages people to take action in their lives to change how they use, consume and manage water.

These promises from individuals and communities will contribute to the Water Action Agenda alongside larger commitments from governments, companies, organizations, institutions, and coalitions.

THE PLANET IS THIRSTY FOR CONCRETE ACTIONS!!

Thank you for your attention!
