# Workshop: Continuing Professional Development (CPD) @CLGE

Jānis Klīve, Jean-Yves Pirlot

**Young  
Surveyors'  
Contest**

12 May 2023

CLGE GA Oradea, Romania

# “Code of Professional Qualification for Property Surveyors”

- Prepared by IG-PARLS (Interest Group of Publicly Appointed and Regulated Liberal Surveyors)
- IG-PARLS members (11 - Austria, Belgium, Bulgaria, Croatia, Denmark, France, Germany, Luxembourg, Slovenia, Spain and Switzerland)

- The CODE is signed by (19): Denmark, Germany, France, Belgium, Croatia, Switzerland, Slovenia, Austria, Romania, Slovakia, Czech Republic, Greece, Spain, Russia, Bulgaria, Northern Macedonia, Albania, Poland, Luxembourg
- This CODE defines and recommends necessary professional qualifications and prerequisites as well as professional business and disciplinary requirements.

**Ver. 1.4 20220912**  
**Code of professional qualifications**  
**for**  
**Property Surveyors**

(The "Code of professional qualifications of Property Surveyors" renews and replaces "Multilateral Accord" issued by GE (Geometer Europas) in 2004 and adopted by CLGE/IG-PARLS by the merger of CLGE and GE in 2010.)

The topics covered by this Code are related to legal regulated cadastral work (in the field of real property formation, modification and registration), property and land management activities to ensure reliable cadastral systems and land registers and to secure and protect property rights. These basic systems and registers are fundamental infrastructural elements in every society in order to secure the rights and ownership of property. It is imperative, that all questions related to property are considered trustworthy and treated reliably.

The surveyors covered by this code are Publicly Appointed or Regulated Property Surveyors acting professionally in the field of cadastral, property and land management systems – all acting in a liberal profession.

Given that their professional activities normally combine those of Publicly Appointed Property Surveyors and those of Regulated Property Surveyors, the Property Surveyor, acting in the cadastral process, can be characterised as follows:

**The Publicly Appointed Property Surveyors** represent the state in the cadastral process or act "on behalf of the state" in the cadastral process.

**The Regulated Property Surveyors** act under a more or less restrictive public legal regulation in the cadastral process.

The profession is a major player in countries where the cadastre and land register tasks are entrusted to the private sector by law.

# Basic requirements from the CODE and CPD

CPD	Continuing professional development. The requirements are at least 20 hours per year.	To maintain professional development and quality. The CPD shall be controlled by the local organizations or by the State
-----	---	--

EDUCATION	PRACTISE	APPROVAL	CPD
<b>5 years UNIVERSITY</b> (3+2) or (4+1) MASTER	<b>Min 2-3-years</b> doing cadastral work	<b>Professional Exam</b> (PE)	<b>20 hours / year</b>
APPOINTMENT	INSURANCE	PENALTY BOARD	QUALITY CONTROL
Based on State law / oath	Obligatory	Obligatory	Obligatory
ETHICAL CODE = CODE of CONDUCT			

## CPD @ CLGE remarks

- New technologies, new approaches for surveyors every day
- It is an obvious need for CPD to ensure quality of surveyor's work
- More and more countries introduce CPD
- The CODE requires 20 h per year
- Some of the countries have shortage of professional courses
- Some of the countries have good lecturers/ courses
- CLGE could be the bridge for both sides
- CLGE could be as a meeting point for the courses and cover all what is necessary for surveyors up to date

# Workshop: CPD @ CLGE

- 2019-2021 questionnaire on European Requirements for Property Surveyors
- During workshop we will update part of this questionnaire
- Discussions about differences and approaches
- Be ready for simple questions about your country
  - *Does your country have CPD?*
  - *How many hours per year?*
  - *Do you have shortage to fulfil the number of courses for surveyors?*
  - *Would you be interested in courses in cooperation with CLGE?*

The **Council** of European Geodetic Surveyors

**Comité** de Liaison des Géomètres Européens

**Thank You for attention!**

*Jānis Klīve, CLGE Vice President*

*Jean-Yves Pirlot, CLGE Director General*
